

# Comprehensive Payroll Automation

WolfePak Payroll Processing offers the control and flexibility you need to manage payroll for a handful of employees or hundreds of employees. Take the worry out of compliance and updating your tax tables.

## FEATURED AUTOMATIONS

Payroll system integrates with all your financial software through the WolfePak General Ledger.

- Provides unlimited deduction and earnings codes
- Accrues sick and vacation time and/or PTO
- Allows direct deposit/ACH with emailed check stubs
- Creates pension extract files for company benefits administrator
- Sends payroll expenses to departments, cost centers or run through JIB
- Break out employees with multiple workers' comp codes
- Pay per diem and employee-reimbursable items through payroll
- Send payroll deductions to corresponding liability accounts
- Prints third-party checks for child support, garnishments and more
- Generates IRS 940 at year-end

## PAYROLL REPORTING

Generate reports for government quarterly reporting and record keeping and provides multiple options through user-defined reports

- Create required new hire reports
- Wages paid report
- Taxes deducted report
- Unemployment reports
- EEO reports
- Verification of employment
- State withholding
- 401k deductions
- Workers' comp
- Year end reports such as 940, W2s, and quarterly reports

*Full ACA compliance for easier ACA reporting:*

**Define your company's specific insurance offerings to employees**

**Automatically populate employee files with status changes**

**User-defined data elements included in reports**

*Additional Options:*

**Inter-company Payroll** allows corporations to use a common "paymaster" to create G/L entries to record expenses

**Combined Reporting** combines multiple payroll companies into one company for federal and state reporting purposes

**Payroll Time Entry**

**Certified Payroll Reporting**
