

No More Duplicate Entry

WolfePak Service Ticket is a quick and easy way for service companies to record tickets, produce invoices, import time into the Payroll System and record the entries in the General Ledger. It is designed to record time and activity at different leases on a per ticket basis, and then invoice a group of tickets on a lease or special group as per customer specifications.

FEATURES

- Tracks time spent by employee and equipment
- Allows entry of parts and labor charges
- Combines tickets for the same customer and location onto one invoice
- Transfer employees time to WolfePak's Payroll System, automatically computing overtime

USED BY OILFIELD SERVICES

- Well Servicing companies
- Drilling contractors
- Salt water disposal facilities
- Trucking and transport
- Roustabout
- Oilfield construction companies

ADDITIONAL OPTIONS

- Prints all state reporting for salt water disposal facilities (RRC form P-18)
- UIC-19/19A
- Electronic Invoicing
